

SIDELINE™

SIDELINE™ Filter Housings

Mid-priced filter housings for most applications.

- A SIDELINE housing is a solid, investment-cast filter in the medium cost range.
- A SIDELINE housing offers a standard eye-bolt closure and a choice of 2" or 3" ANSI flanged connections as standard.
- For filter bags sizes 01, 02, 03 and 04.
- Type 304 or 316 stainless steel construction means superior corrosion resistance and consistent performance, year after year. A smooth, bead-blasted finish, coupled with SIDELINE's minimum 2-weld design, makes it easy to completely clean the interior of the housing.
- All SIDELINE housings come with an exclusive Five Year Warranty and the ASME code UM stamp.
- SIDELINE housings... for all heavy duty industrial applications.

These value added features:

Side inlet with evacuation cover

Cover opening direction can be changed in the field

Compression bag hold down

Integral cover handle

Give these benefits

Less messy bag changing, no spillage of unfiltered liquid.

Easily adapts to different piping layouts. Accommodates walls, posts or other obstructions.

360 degree sealing of the filter bag to the housing.

Ergonomical and easy to open

See page 5 for dimensions.

1) SS = Austenitic Stainless Steel SS 316 and CF8M or better
 2) Maximum theoretical flow based on water viscosity, bag specific
 3) Dimensions for reference only and approximate. Exact dimensions for installation purposes available on request.
 4) For details, see available product specific data sheet

* Type number is for stainless steel construction. Change AB to CS for carbon steel.
 ** Depending on seal material
